Carbon-Steel Foot Guard

The foot guards are metal shields worn over shoes for maximum protection to the entire foot - instep as well as toes - against falling, rolling, or flying objects or accidental tool blows. They are designed to withstand an impact of 75 foot pounds, with a large safety factor designed in. Foot guards fit any shoe (no rights or lefts), with 5-inch (average) and 5-and-1/2-inch (large) widths. They are light enough to be worn comfortably all day. To keep the guard properly positioned, it has a rubber toe clip, crossbar, and either a one-piece rubber strap with a tension buckle, or a two-piece leather strap with a spring fastening device. Per Federal Regulations, guards provide protection equal to AIMS-Z41 standards.

Features

- Material: 16-gauge carbon steel
- Weight per Pair: 3-and-1/8 pounds
- Component: Rubber Toe Clip
- Designed to withstand impact of 75 foot pounds
