

VELOCITY SPEED GUN

Sports Imaging

Features:

Easy-to-use, point-and-shoot pistol grip
Large, clear LCD display
Displays fastest speed once trigger is released
+/- one mph accuracy

A Changeup of Perspective.

Knowing how fast a player pitches or runs can instantly influence a coaching decision. And 15 over the limit doesn't seem so excessive when you find out what they're doing down on the track. The Bushnell® Velocity™ will tell you to +/- 1.0 miles per hour using digital technology and DSP (digital signal processing). Measure the speed of a baseball from up to 90 feet, or a vehicle from as far as 1,300 feet.

Model : 101911

Technical Specification:

Statistics Modes	N/A
Weight (oz. / g)	19 / 539
Accuracy (mph/kmph)	+/- 1 mph +/- 2 kph
